SHRUBS

All of our shrubs are field-grown and graded according to the standards of the American Association of Nurserymen. Sizes noted in the descriptions indicate average height of shrubs at maturity as given in "Hortus Second."

Tied 12 to 18 in., 25; 18 to 24 in., and 2 to 3 ft., 10; 3 to 4 ft., 5 per bundle.

ALMOND, PINK FLOWERING

Prunus glandulosa rosea

This continues to be one of the aristocrats among flowering shrubs. Neat habit of growth, never gets out of bounds. Withstands high temperatures, extreme droughts and intense cold. In early spring before the leaves appear the stems are covered with double pink flowers, making it very showy and highly ornamental. Should be in every shrub border for early spring color. Excellent for foundation planting. Our plants won't sucker because they are grown on their own roots. 3 to 5 feet.

	Per 10	Per 100	Per 1000
2 to 3 feet, own roots	6.00	55.00	500.00

18 to 24 inches	5.00	45.00	—
12 to 18 inches	3.50	30.00	—

MENTOR BARBERRY

Berberis mentorensis

This barberry is one of the best ever introduced for the south and southwest. It withstands drought and high temperatures and in the south is evergreen. In Kansas it frequently holds its foliage until February; in places protected from winter sun it will remain green all winter. The foliage is large, thick, leathery, very attractive; red fruits in the fall and winter. It grows very bushy and will reach a height of 5 or 6 feet. There have never been enough of these plants to go around, it is in such great demand.

	Per 10	Per 100
2 to 2½ feet	11.00	100.00

BARBERRY (Berberis). Valuable for massing and for low hedging.

Red Leaf (B. thunbergi atropurpurea). Variety of Japanese barberry with bright red foliage all summer, red berries in autumn. 6 to 8 feet.

15 to 18 inches	4.50	40.00	—
12 to 15 inches	4.00	35.00	—

Thunbergi (Japanese Barberry). Low growing, spreading shrub with numerous thorns and attractive foliage that turns red in the fall. Yellow flowers and red berries. Fine for hedges and mass planting. This barberry does not carry wheat rust. 5 to 8 feet.

18 to 24 inches	5.00	45.00	—
12 to 15 inches	3.00	25.00	—

BUCKTHORN (See Rhamnus)**BUDDLEIA****Butterfly Bush****Care of Butterfly Bush**

In order to get best results with Butterfly Bush (Buddleia), it is necessary to understand the nature of the plant. Butterfly Bush is not a shrub in the same sense as a snowball or lilac. Strictly speaking, it is a hardy perennial.

The tops of Butterfly Bush are perennial, like those of peonies and chrysanthemums. In other words, they die down to the crown every year. The following spring new tops are produced and the flowers are borne on the new wood. The tops should be cut off clear to the ground when the plants are set out. Mulch the crowns during the winter, and cut the tops back to the ground every spring.

Butterfly Bushes are handsome shrubs with long narrow leaves, grow 2 to 4 feet high in one season, and come in a wide range of color: red, purple, lavender, pink and white.

Butterfly Bushes like reasonably fertile well drained soil, and plenty of sunlight. In the northern two-thirds of the country the tops die down in the winter, but new tops are developed the next season and bloom the same year.

We offer you a selection of five of the very best varieties.

Charming. The most nearly pink Butterfly Bush we have seen. Large, rather open sprays on tall vigorous bushes. **Per 10 Per 100 Per 1000**

No. 1	4.00	35.00	300.00
Medium	3.20	28.00	250.00
No. 2	2.00	18.00	150.00

Dubonnet. Live, reddish-purple, like the wine for which it is named. Extra long, full spikes. Continues to be one of the most popular.

No. 1	4.00	35.00	300.00
Medium	3.20	28.00	250.00
No. 2	2.00	18.00	150.00

Floralart. Developed in New Mexico by Mr. A. C. Miller and introduced by us. In our opinion it has the best flower of all because nearly the whole spike blooms at one time. On most other varieties the bottom flowers are faded before the top flowers open. For this reason Floralart makes best cut flowers. Handsome orchid-lavender flowers in large, full, very compact spikes. Medium size bush.

No. 1	4.00	35.00	300.00

SNOWHILL HYDRANGEA, (Hydrangea arborescens grandiflora)

Because of the splendid performance of this shrub during the summer of 1955, we expect the demand for it to be greater than usual. All over the country it put on a spectacular show with its profusion of large snowball-like flowers set off with the dark green foliage on shapely bushes. You can't beat it for foundation planting. Especially adapted to shady places. Blooms in June-July and sometimes grow to 8 feet.

HYDRANGEA PEEGEE
Hydrangea paniculata grandiflora

In keeping with the Willis policy of striving for the best, we are offering the Meehan strain of Hydrangea Peegee, known to be the finest of Peegees. Enormous cone-shaped heads of white flowers, often a foot or more across. The flowers slowly change from white to pink, progressing to rose, and finally in autumn to bronze. Make good winter bouquets. Long blooming season from July to October. Grow 6 to 8 feet high. Use for foundation planting, shrub borders, or individual specimen.

NIKKO BLUE HYDRANGEA
The Most Beautiful Hardy Blue Hydrangea

Every year we have to disappoint many of our customers whose orders are received too late. Order today to be sure of your supply.

Blue Hydrangeas are not new to American horticulture, but most of them have been tender varieties grown in greenhouses, and occasionally planted in gardens.

Now we have Nikko Blue, both hardy and beautiful. It has withstood temperatures of 20 degrees below zero. The tops die down to the ground every winter, but give them a little mulch protection and the crowns will grow into bushy shrubs in one season, 2 to 4 feet tall with attractive, luxuriant foliage and great masses of flowers.

Because the flowers are borne on the new wood, you get blooms every year, and lots of them. It is not at all unusual to see flower heads more than a foot across and the shrub completely covered with them—a wonderful show.

In alkaline soil the flowers are pink; in acid they are blue. It's easy to change alkaline soil into acid with aluminum sulphate (two tablespoons to a gallon of water).

There is a real vogue for Nikko Blue Hydrangeas. They are used for:

Perennial Borders
Shrub Borders
Lawn Specimens
Planting in Tubs and Boxes
Foundation Plantings

Be prepared to supply your customers. Our plants are especially nice this year—strong, 2-year-old crowns with numerous stems.

SHRUBS (Continued)

TAMARIX (Continued)

Hispida (Kashgar T.). We are often asked what tamarix we think to be the best. The answer is Hispida. It is a graceful shrub with fine feathery blue-green foliage and bright pink flowers that bloom off and on all summer. You can trim it to make a neat hedge or plant it for individual specimens. The foliage is useful for making bouquets, for which it is used by many florists.

	Per 10	Per 100	Per 1000
3 to 4 feet	6.00	55.00	500.00
2 to 3 feet	5.00	45.00	400.00
18 to 24 inches	4.00	35.00	—

Summer Glow. Similar to Hispida but flowers a deeper shade of pink.

3 to 4 feet	6.50	55.00	—
2 to 3 feet	5.00	45.00	400.00
18 to 24 inches	4.00	35.00	—

NOTICE: The tops of tamarix must be cut back short when transplanting. If this is not done, they may fail to grow.

VIBURNUM

Dentatum (Arrowwood). Attractive foliage, white flowers followed by blue-black fruits. 10-12 feet.

18 to 24 inches	4.50	40.00	—
-----------------	------	-------	---

Opulus sterilis (Common Snowball). Smooth light gray branches, broad leaves. Large white balls of flowers, very showy. 12 feet.

12 to 18 inches	4.00	35.00	—
-----------------	------	-------	---

Prunifolium (Blackhaw). Bushy shrub with narrow rounded leaves and large clusters of white flowers. Withstands heat and drought. Beautiful bush and flower.

2 to 3 feet	7.00	65.00	—
18 to 24 inches	5.50	50.00	—

VITEX MACROPHYLLA (Chaste Tree). Semi-dwarf, hardy, showy lavender-blue flowers. Foliage and flowers fragrant. 10 feet.

2 to 3 feet	5.50	50.00	—
18 to 24 inches	4.00	35.00	—
12 to 18 inches	3.50	25.00	—

WEIGELA

Eva Rathke. Deep red flowers. Blooms profusely. 5 feet.

2 to 3 feet	6.00	55.00	—
-------------	------	-------	---

Newport. An improved variety. Blooms very freely with brilliant red flowers in May-June. 5 feet.

2 to 3 feet	6.50	60.00	—
-------------	------	-------	---

WILLOW

Caprea (French Pussy Willow). Tall upright shrub or tree with pinkish-gray catkins in early spring before the leaves. 20 feet.

3 to 4 feet	5.50	50.00	—
2 to 3 feet	4.50	40.00	—

3 to 4 feet	5.50	50.00	—
2 to 3 feet	4.50	40.00	—
18 to 24 inches	3.50	30.00	—

VINES

AMPELOPSIS (Parthenocissus) (Ivy)

Englemanni (Engleman Creeper). Hardy clinging vine, bright autumn colors.

	Per 10	Per 100	Per 1000
2 year, No. 1	3.50	30.00	—
2 year, Medium	3.00	25.00	—

Quinquefolia (Virginia Creeper). Rapid growing five leaf ivy. Hardy and suitable for covering stone walls, trellises, fences, etc.

	Per 10	Per 100	Per 1000
2 year, No. 1	3.50	30.00	—
2 year, Medium	3.00	25.00	—

BOSTON IVY

Parthenocissus tricuspidata

Used to be called **Ampelopsis veitchii**. Continues to be one of the most aristocratic and refined of vines. It will cling to brick, stucco, stone, and rough wood without support. The foliage stands smoke and dust well, and in autumn turns brilliant shades of scarlet and orange.

	Per 10	Per 100	Per 1000
2 year, No. 1	4.50	40.00	—
2 year, Medium	3.50	30.00	—

AMERICAN BITTERSWEET

Celastrus scandens

The American Bittersweet is much better than the oriental. The clusters of berries are larger, the color brighter, and the fruit stems longer—the whole aspect of the vine is more graceful. When ripe, the bright yellow berries burst open revealing the brilliant red centers. Hard to beat for winter decoration indoors or out.

Some vines don't produce berries at all, but we propagate our vines by cuttings taken from bearing plants.

VINES (Continued)

LONICERA (Honeysuckle). (Continued)

Per 10 Per 100 Per 1000

Purpleleaf. (L. Japonica, Purpleleaf). Evergreen foliage; bronzy in summer, purple in fall and winter. Fragrant creamy pink flowers all summer. Very vigorous grower. Good for screens, hedges, planter boxes. Can be sheared.

2 year, No. 1	4.00	35.00	300.00
2 year, Medium	3.50	30.00	250.00

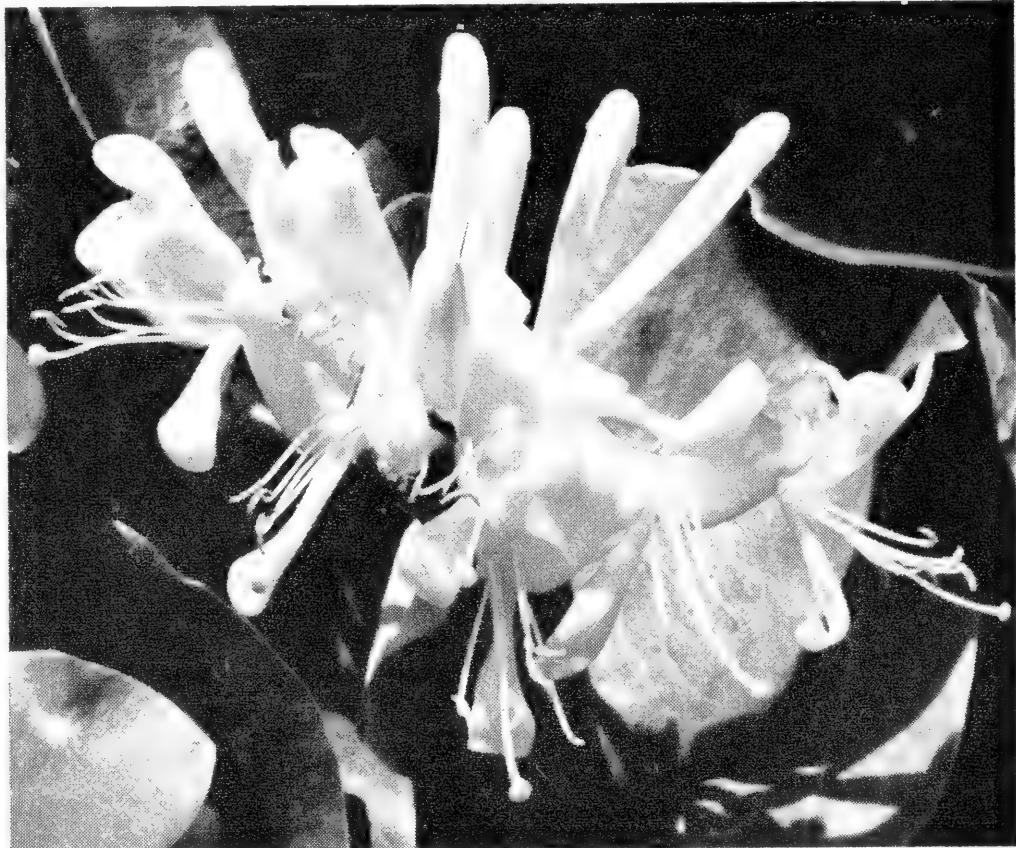

Semperflorens Magnifica (Deer's Everblooming). Blooms all summer with large clusters of coral-red trumpet-shaped flowers.

2 year, No. 1	5.00	45.00	—
2 year, Medium	4.00	35.00	—

Yellow Trumpet. Large bright yellow trumpets. Vine resembles scarlet Trumpet, but flowers are a pure bright yellow. Blooms all summer.

2 year, No. 1	3.50	30.00	—
2 year, Medium	3.00	25.00	—

Redgold Honeysuckle
(Trademark)

Extremely long flowers that are very striking. The buds are golden, flushed with red. They open into huge, intensely golden trumpets. The foliage is very clean, light green above, blue-green below. In windy weather, the varying colors caused by the difference in shades creates 2 unusual and interesting effects. Bloom May-June.

	Per 10	Per 100
2 year, No. 1	5.50	50.00
2 year, Medium	4.50	40.00

VINES (Continued)

POLYGONUM

Auberti (Silver Lacevine). Also called China Fleecevine. Just about the fastest growing vine under cultivation. Reminds one of the cartoon of the vine that grows so fast you have to shut the door quick to keep it from following you in. Silver Lacevine is what you want to use to cover a big area in a short time, either on a trellis or on the ground. Blooms first year with great masses of foamy white flowers. This vine is so popular we grow many thousands of them every year.

	Per 10	Per 100	Per 1000
2 year, No. 1	4.50	40.00	350.00
2 year, Medium	3.50	30.00	—

Reynowtria. New! A wonderful addition to the list of useful ground covers. Grows to a height of only 6 to 12 inches. Fall blooming with reddish pink flowers. Foliage turns brilliant red in fall.

2 year, No. 1	5.50	50.00	—
---------------	------	-------	---

WISTERIA

Sinensis (Chinese Wisteria). Long attractive clusters of purplish-blue flowers early summer. Vigorous grower. Our plants were propagated from blooming wood.

3 year, No. 1	4.50	40.00	350.00
2 year, No. 1	4.00	35.00	300.00
2 year, Medium	3.00	25.00	200.00

SHADE AND ORNAMENTAL TREES

All our shade trees are grown in wide rows with plenty of space between them in the row to allow for proper development. Calipers are measured 6 inches above the collar. Sizes given in descriptions indicate height at maturity as given in "Hortus Second."

BALLED AND BURLAPPED SHADE TREES

Certain varieties and grades of shade trees can be balled and burlapped. For this service, there will be an additional charge per tree as follows:

8 to 10 feet	\$4.00	5 to 6 feet	\$2.25
6 to 8 feet	\$3.00	4 to 5 feet	\$1.75

ASH GREEN (Fraxinus lanceolata). Large round-topped trees with attractive compound leaves. Does well in semi-arid areas and high altitudes. Grows rapidly. 60 feet.

	Per 10	Per 100
8 to 10 feet	25.00	—
6 to 8 feet	16.50	150.00
5 to 6 feet	11.00	100.00
4 to 5 feet	8.50	75.00

BALD CYPRESS

Taxodium Distichum

This is the famous Cypress from which comes the long-lasting Cypress lumber. But it also makes a beautiful ornamental tree with its majestic pyramidal top and soft feathery foliage. Especially desirable for planting on lawns, in parks, and along avenues.

Although it is native to the swamps and bayous of the South it is hardy as far north as Michigan, and it withstands extreme heat and drought. Truly a remarkable tree. Grows to about 150 feet.

	Per 10	Per 100
6 to 8 feet, B & B	100.00	800.00
5 to 6 feet, B & B	70.00	650.00

5 to 6 feet	7.00	60.00

Mountain (From New Mexico). Small leaves; no flower, seeds or cotton.

8 to 10 feet	13.50	125.00
6 to 8 feet	11.00	90.00
5 to 6 feet	7.50	65.00

FLOWERING CRABS
(*Malus*)

At long last, flowering crabs are getting the attention they deserve. First of all, Flowering Crabs are highly ornamental. Not only are the trees themselves attractive, but the flowers and fruits are decorative. Some varieties produce edible fruit, notably Hopa and Dolgo.

Flowering Crabs can also be used for shade. They are especially desirable for this purpose, on small home grounds where there is no room for the larger trees such as elms, oaks, and sycamores. Out of the many varieties of Flowering Crabs on the market, we have selected a group that we consider the best, based on years of observation.

FLOWERING CRABS (*Malus*).

	Per 10	Per 100
Atrosanguinea. Purple-bronze foliage, rosy-lavender flowers. Purplish fruit. 18 feet.		
4 to 5 feet	12.00	110.00
3 to 4 feet	8.50	80.00
2 to 3 feet	5.50	50.00

2 to 3 feet	8.50	75.00
18 to 24 inches	6.00	50.00

CHRISTINE BUISMAN ELM

The Coming Shade Tree

Photo courtesy USDA

This is the elm that was developed in Holland a number of years ago by Dr. Christine Buisman. Repeated tests over many years by the United States Department of Agriculture show that it is highly resistant to both phloem necrosis and Dutch elm disease.

Buisman Elm is a selection of the European Smoothleaf Elm. It has a straight trunk, with slender, but strong, ascending branches that form a pyramidal head, or sometimes spreading and forming a round-topped head. The handsome foliage is dense and dark green.

Buisman elm is highly satisfactory both for lawn and street planting.

3 to 4 feet, field-grown	17.50	150.00
2 to 3 feet, field-grown	14.00	125.00
18 to 24 inches, field-grown	11.00	100.00
12 to 18 inches, field-grown	8.00	75.00
2 inch pots	6.00	50.00

SHADE AND ORNAMENTAL TREES (Continued)

HACKBERRY (*Celtis occidentalis*). Resembles American Elm. Desirable shade tree. It is not affected by the diseases that attacks elms. 120 feet.

MOSS LOCUST. (See Rose Acacia)

OAK, PIN (*Quercus palustris*). Rapid growing trees with deeply cut leaves that turn bright colors in autumn. Assume a narrow pyramidal form. Excellent street and lawn tree.

8 to 10 feet, B & B	90.00	—
6 to 8 feet, B & B	60.00	—
5 to 6 feet, B & B	40.00	—
4 to 5 feet, B & B	30.00	—

NOTE: Because of the heavy losses in transplanting Oaks bare root, we are offering them only B & B.

SHADE AND ORNAMENTAL TREES (Continued)

MORAINE LOCUST

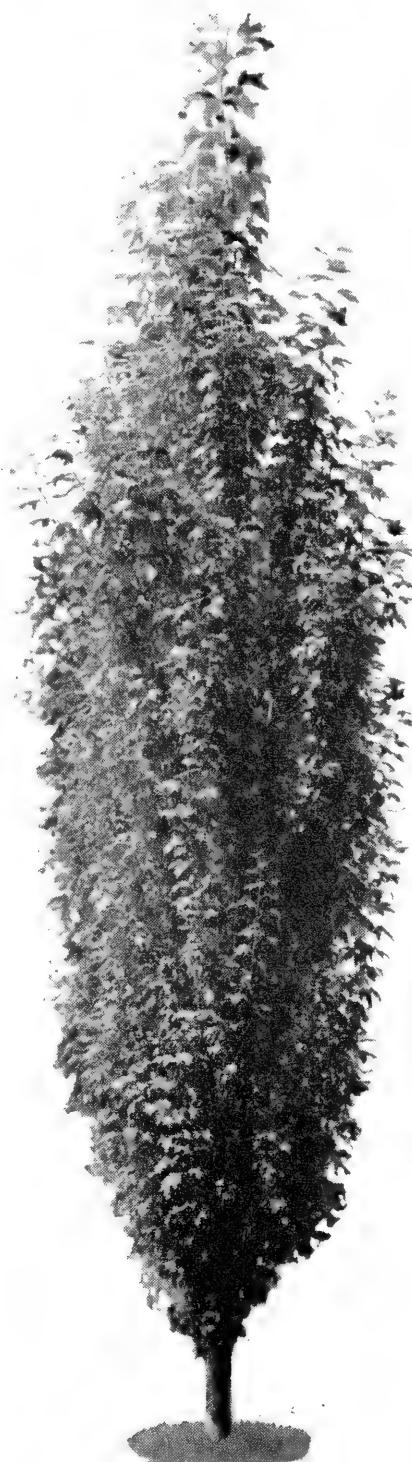

(Plant Patent No. 836)

The Moraine Locust is a round-headed tree when young, but tall and vase-shaped when older, attaining a height of 80 to 100 feet. It grows more rapidly than the common type of locust because of the absence of seed pods and thorns. This attribute, together with the small leaflets which mostly drift into the lawn between the blades of grass, makes little fall clean-up necessary. It stands pruning well but very little is necessary since the lower branches self-prune as the top grows wider. This makes it desirable for narrow street planting of small properties, as sufficient clearance can be maintained for any type of traffic. Transplants easily.

	Suggested Retail	Per 10	Per 100
7 to 8 feet, branched	9.00	45.00	400.00
7 to 8 feet, whips	7.50	33.50	300.00

PATENTED HYBRID TEA

	Each	10-19	20 & Up
Charlotte Armstrong. Patent No. 455 (Retail \$2.00). Long, slender blood-red buds open to brilliant cerise flowers. AARS-award winner in 1941.	1.10	1.00	
Chrysler Imperial. Patent No. 1167 (Retail \$2.50). Vivid rich tones of crimson enhanced by darker overtones of glowing ox-blood red. Long tapering buds. Large high-centered flowers measuring 4½ to 5 inches with 40 to 50 petals. Long sturdy stems. 1953 AARS winner.	1.40	1.25	
Forty-Niner. Patent No. 792 (Retail \$2.50 each). One of the most brilliant bi-colors ever introduced. Contrasting colors of vivid Oriental red on inside of petals and chrome yellow on outside blend together beautifully. Tall and vigorous. Mildly fragrant. Colors are lasting and retain brilliance. All American winner for 1949.	1.40	1.25	
Happiness. Patent No. 911 (Retail \$2.00 each). Well formed, large, long lasting blooms of brilliant red. Splendid for cutting. Plants are strong and healthy.	1.10	1.00	

PATENTED ROSES (Continued)

10-19 20 & Up
Each Each

Mirandy. Patent No. 632 (Retail \$2.25). 1945 All American Award winner. This gorgeous, fragrant red rose readily takes its place among the best reds of all time. The ovoid buds are deep rich dark red with black shadings, opening to lovely chrysanthemum-red velvety textured flowers of huge proportions. Its delicious fragrance will make you inhale deeply, for the damask perfume is the essence of rose perfection. 1.25 1.12½

New Yorker. Patent No. 823 (Retail \$2.00 each). Huge, high centered flowers of a clear, sparkling shade of red are produced in continuous succession. Has a delightful raspberry fragrance, and the heavy textured petals hold their color. Plant is hardy and resists disease. 1.10 1.00

Peace. Patent No. 591 (Retail \$2.50 each). The only All American Selection of 1946. The ovoid buds are golden-yellow etched with pink. As they open they change from canary-yellow to pale gold to iridescent cream. The petals are edged with apple-blossom pink that deepens as the flower slowly opens to glorious 5 inch blooms. 1.40 1.25

President Eisenhower. Patent No. 1217 (Retail \$2.00 each). Large, rich unfading, uniform blooms of lasting rose-red, produced singly on long stems. Free and continuous bloomer. Fragrant. 1.10 1.00

Show Girl. Patent No. 646 (Retail \$2.00 each). Very beautiful, perfect, long, deep pink buds, almost carmine in the spring. Flowers are long lasting and have big heavy-textured petals. Tall plant with big heavy canes. Flourishes in all climates. 1.10 1.00

PATENTED CLIMBING

Cli. Crimson Glory. Patent No. 736 (Retail \$2.50 each). Bright crimson climbing form of bush rose Crimson Glory. 1.40 1.25

Cli. Peace. Patent No. 932 (Retail \$2.00 each). Climbing form of the famous bush rose 1.10 1.00

PATENTED FLORIBUNDA

Chatter. Patent No. 739 (Retail \$1.50 each). Unusually bright crimson blooming continuously with large clusters. .90 .75

Fashion. Patent No. 789 (Retail \$2.00 each). Intense salmon-orange coloring is brilliant, yet soft and lovely; unique. Buds and flowers of exquisite form with an old-rose fragrance. Plants are vigorous and bushy; they have small glossy foliage. 1950 award winner. 1.10 1.00

Goldilocks. Patent No. 672 (Retail \$1.50 each). Rich golden-yellow flowers in many clusters resemble miniature Hybrid Teas in form. The compact bush produces golden masses of perfect buds and long-lasting flowers. .90 .75

Ma Perkins. Patent No. 1143 (Retail \$2.00 each). 1953 AARS winner. Red in outer petals—yellow in early stages of bloom. With aging comes a soft coral shell pink. 1.10 1.00

Pinocchio. Patent No. 484 (Retail \$1.50 each). Beautiful buds and flowers of bright cherry salmon flushed with gold, are borne on long sprays. Such a prolific bloomer, the plant is covered throughout the season with immense clusters of perfect baby roses. Fruity fragrance. .90 .75

Red Pinocchio. Patent No. 812 (Retail \$1.50). Masses of 3½ inch flowers in unfading rich carmine clusters. Vigorous, prolific bloomer. .90 .75

World's Fair. Patent No. 362 (Retail \$1.50 each). Fragrant, large clusters of large double, velvety black-scarlet flowers. Exceptionally hardy. Makes a continuous display from late spring until frost. .90 .75

EVERGREENS

The name Willis has become synonymous with Quality in evergreens and there is good reason for it.

A crew of trained men spends most of its time in our evergreens shearing and pruning with skilled hands to insure compactness and symmetry. No diseases or insect pests are permitted a foothold in our trees and no weeds, noxious or otherwise, will be found in our evergreen blocks. We would like to have you come to see for yourself.

All of our evergreens are grown in soil especially suitable for balling. Although we cannot assume responsibility for results, our evergreens have given satisfaction throughout the middlewest.

All evergreens are priced balled and burlapped (B & B)

	Per 10 Each	Per 100 Each
CUPRESSUS ARIZONICA (Arizona Cypress). Blue whipcord foliage. Grows in a compact pyramidal form with little shearing. Withstands heat and drought. Hardy at Ottawa. Grafted trees.		
3 to 4 feet	5.50	5.00
2 to 3 feet	4.75	4.25

EUONYMUS (See Broadleaf Evergreens)

JUNIPER SCOPULORUM

Platinum

An Outstanding New Evergreen

(Plant Patent No. 1070)

This splendid new Juniper, recently introduced by us, is finding wide acceptance. Its brilliant silvery blue color is retained the year around. It grows fairly rapidly, but because the foliage is so dense, very little shearing is required to make it compact and symmetrical. Especially adapted to the Great Plains, the Mountain states, and the Southwest. It has never blighted with us.

	Each Per 10	Each Per 100

3 to 3½ feet	4.40	4.00
2½ to 3 feet	3.85	3.50
2 to 2½ feet	3.30	3.00

LARGE EVERGREENS

We have a fair supply of larger evergreens in a limited assortment. If interested in evergreens larger than those offered in this list, write us.

BROADLEAF EVERGREENS

Per 10 Per 100

EUONYMUS FORTUNEI COLORATUS (Purpleleaf Wintercreeper). Evergreen foliage that turns bronzy-red in autumn. Excellent ground cover.

2 year, No. 1	5.50	50.00
2 year, Medium	4.50	40.00
3 inch pots	3.00	25.00
2 inch pots	1.70	15.00

EUONYMUS FORTUNEI, UPRIGHT. (Upright Euonymus Radicans). New.

Grows upright naturally. Makes good shrubs and thick hedges. Can be staked and sheared into columns. Dark green leaves and stems the year round. Transplants easily bare root. We consider this one of the best and most useful broadleaf evergreens introduced in recent years.

10 to 15 inches	4.50	40.00
6 to 10 inches	3.50	30.00
2 inch pots	2.50	20.00

EUONYMUS FORTUNEI MINIMUS. Small dark green leaves. A creeping plant that will cling to brick, stone, stucco and rough boards. Use in rock gardens and on foundations and low walls.

3 inch pots	3.00	25.00
2 inch pots	2.50	20.00

EUONYMUS PATENS. Heavy, field-grown, large leaf variety for mass or formal plantings, or as individual specimens.

2½ to 3 feet, B & B	38.50	350.00
2 to 2½ feet, B & B	33.50	300.00
18 to 24 inches, B & B	25.00	225.00
15 to 18 inches, B & B	20.00	175.00

EUONYMUS PATENS (Large Leaf). These plants were grown especially for hedging purposes or may be lined out to grow on for sheared specimen plants.

15 to 18 inches	4.50	40.00
10 to 15 inches	3.50	30.00

EUONYMUS PATENS (Small Leaf). Ideal for evergreen hedges. Makes a very bushy plant that may be allowed to grow informally, or by shearing can be made into a compact formal hedge anywhere from 10 inches to 3 feet high. Excellent substitute for boxwood in the middle-west. Use for boundary hedges, or for enclosing rose and flower gardens and for formal planting. This is an extremely useful plant.

Can be planted any time of the year. Transplants very easily with a minimum of loss.

15 to 18 inches, transplanted, well branched	5.00	45.00
10 to 15 inches, transplanted, well branched	4.00	35.00
6 to 10 inches, transplanted, well branched	3.00	25.00

MAHONIA AQUIFOLIUM (Oregon Hollygrape). Low growing, compact shrub with holly-like leaves which turn brilliant colors in autumn. Bright yellow flowers in spring followed by grape-like clusters of black berries.

18 to 24 inches, B & B	41.50	375.00
15 to 18 inches, B & B	35.00	300.00
12 to 15 inches, B & B	25.00	225.00

TRADE MARK

New!

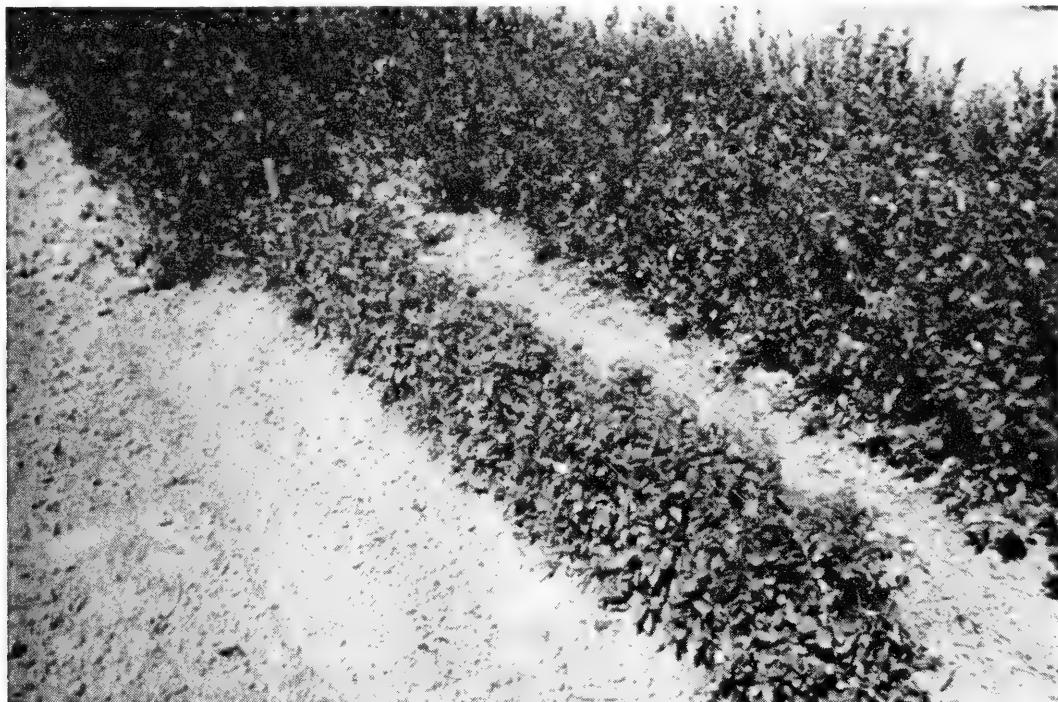

Handsome!
Useful!

After observing the performance of this Euonymus for several years, we were so impressed by its many excellent qualities that we decided to give it a special name to distinguish it from other strains of Euonymus.

Euonymus Dupont is a selection of the small-leaf strain of Euonymus patens (Kiautschovicus) one of the most useful broadleaf evergreens ever introduced.

It is characterized by small dark green, clean-cut leaves set closely on the stems. It is extremely bushy for its height. Two-year-old plants often have as many as 30 to 50 canes.

In addition to making a very compact growth, it produces a vigorous root system characterized by many fibrous roots. Because of this it transplants bare root very readily. In fact it can be transplanted successfully almost any time of the year. Its growth is fairly rapid, yet it can be kept within bounds by an occasional shearing. The more it is sheared, the denser the growth.

Euonymus Dupont hedge created by one shearing of two-year-old plants in nursery row. Note uniformity and compactness.

Euonymus Dupont

Euonymus Dupont has many uses:

Hedges, formal and informal. Its fine foliage and dense growth make it a good substitute for boxwood. Excellent for bordering gardens, walks, drives, etc. Can be kept as low as six inches.

Foundation Plantings on the new style low houses made of Euonymus Dupont are very effective and inexpensive.

Picture Windows are often so close to the ground there is little room for planting under them. Euonymus Dupont will solve this problem with either a formal or informal planting.

Planter Boxes. Euonymus Dupont gives a rich effect in planter boxes. Can be used with flowers for color.

Walls. Large expanses of bare walls can be softened by planting Euonymus Dupont against them. It will adhere to stone, brick and stucco.

PRICES

15 to 18 inches, transplanted, well branched	\$6.50	\$50.00	\$450.00
10 to 15 inches, transplanted, well branched	5.00	40.00	350.00
6 to 10 inches, transplanted, well branched	3.50	30.00	250.00
2 inch pots plants	3.00	25.00	200.00
30 at 100 rate; 300 at 1,000 rate.			

Block of two-year-old Euonymus Dupont showing dense, uniform habit of growth.

Two-year-old plant of Euonymus Dupont dug from nursery row. Note the mass of fibrous roots.

PERENNIALS

All of the perennials offered here are field-grown, except as otherwise noted. We recommend express shipment for perennials, because they are too perishable for freight shipment.

		Per 10	Per 100
ASTER, HARDY PERENNIAL			
Blue Gem. Large flowers, double, blue with yellow center. September until frost. One of the best. 3 to 4 feet	1.90	16.00	
Blue Gown. The finest light blue. Large flowers, yellow center. Grows very compact. 3 to 4 feet	1.90	16.00	
Red Rover. Early, free blooming. Deep rose red flowers, golden centers. Buds bright red. 2 to 4 feet	2.10	18.00	
Sam Banham. Large feathery pure white. One of the earliest of the hardy asters to bloom. 2 feet.	1.90	16.00	
St. Egwin. Beautiful light pink. Compact 2 to 2½ foot plants	2.10	18.00

------------------------------------	------	-------

DICENTRA SPECTABILIS (Old-Fashioned Bleeding Heart)

Large heart-shaped pink flowers, on gracefully drooping branches, early spring. 3 to 5 eye divisions.	4.50	40.00
---	------	-------

FUNKIA LANCIFOLIA.

Lovely blue flowers on large spikes. Narrow dull green leaves; grows well in shade.	1.90	16.00
---	------	-------

PERENNIALS (Continued)

HELIANTHUS

Loddon's Gold. (Perennial Double Sunflowers)

One of the finest perennials for cutting. The flowers resemble double dahlias several inches across. Bright clear yellow. Produces a large (3 to 5 foot) well-branched plant, covered with flowers most of the summer and until killing frost. Thrives in hot weather and will withstand lots of drought. The flowers are long-lasting. Loddon's Gold is the best variety of this splendid perennial that we have found. \$3.50 per 10; \$30.00 per 100; \$250.00 per 1,000

Per 10 Per 100

GAILLARDIA (Blanket Flower)

Dazzler. Large flowers, bright golden yellow with rich maroon-red center. 1.40 12.00

Grandiflora. Very large flowers of brilliant scarlet with copper hue. Petals tipped with yellow. 1.40 12.00

VINCA MINOR (Periwinkle).

Bowles Variety. Dark shining green leaves and blue flowers. Makes a splendid ground cover, especially in shady spots.

3 inch pots	2.50	20.00
2 inch pots	1.80	15.00

STOKESIA (Stokes Aster).

Blue Moon. Large, light blue disc-like flowers borne on strong stiff stems. Hardy, blooms freely throughout the summer.

3 inch pots	2.10	18.00
2 1/4 inch pots	1.70	14.00

HEMEROCALLIS

(Daylilies)

By means of hybridization and selection, a wonderful new race of Hemerocallis has been created in recent years. There are so many hundreds of varieties that one who wants only a few becomes confused. For this reason, we are offering a selection of some of the best varieties in various colors to give you a succession of bloom from early summer until late fall.

Prices: \$1.50 per 10; \$12.00 per 100; \$100.00 per 1,000, except as noted (*). 300 alike or assorted at 1,000 rate.

* \$2.50 per 10; \$18.00 per 100.

August Pioneer. Chrome-yellow flushed red on outer half of petals.

***Hyperion.** Considered by many to be finest of all. Large waxy flowers of canary-yellow. July-August. 48 inches.

Kwanso flore plena. Rich orange, double petaled.

Margaret Perry. Brilliant flowers of orange-scarlet lined yellow. July-August. 48 inches.

Middendorffiana. Rich orange-yellow.

Mikado. Large rich orange with deep mahogany-red throat. June-July.

Mrs. W. H. Wyman. Soft yellow. July-August. 42 inches.

Ophir. Deep golden-yellow, 5 inch flowers. As many as 25 to 30 to a stem. 50 inches.

Thunbergi. Pale yellow flowers, evening blooming, sweet scented. July-August. 36 inches.

Mixed Varieties.

PERENNIALS (Continued)

GERMAN IRIS

(Iris Germanica)

\$1.50 per 10; \$12.00 per 100; \$100.00 per 1,000
(30 alike or assorted at 1,000 rate)

Baldwin. Dark purple, one of the best. **Indian Chief.** One of the finest red irises.

Black Douglas. Black-purple self, full and ruffled, blooms profusely on branching stems.

California Gold. Splendid deep yellow, clear color. Large flowers freely produced.

Crystal Beauty. Gorgeous pure white. Perfect shape and flowers freely.

Dalmatica. Light lavender.

Frieda Mohr. Deep pink tone.

Honorabilis. Gold and mahogany brown.

Leota. Creamy white.

Missouri. Strong medium blue in tone; large flowers of heavy substance.

October Blaze. Brilliant red tone, fall blooming.

Roseway. Deep reddish pink, orange beard.

Snowking. White with gold throat.

Violacea Grandiflora. Rich violet purple.

War Eagle. Daphne-pink standards, dahlia-carmine falls, bronzy beard.

IRIS OCHROLEUCA
Yellow Band Iris

\$2.10 per 10; \$18.00 per 100. The best Iris for cutting.

Blooms after German Iris and before Japanese Iris.

Giganteum. White standards and falls with gold band down center of falls.

IRIS PUMILA (Dwarf Iris)

	Per 10	Per 100

LINING-OUT STOCK

Better stands. Pot plants have a better root system and stand the shock of transplanting better than bare root stock.

Better growth. Pot plants start off quicker and make a better first season growth; thus they are ready to market sooner.

You can plant later. Pot plants can safely be set out in the field much later than bare root stock. This gives you more planting time in your busy season. With irrigation you can plant nearly all summer.

YOU CAN HAVE EXTRA PROFITS With WILLIS

Packaged Nursery Stock

Ideal for cash-and-carry, self serve, and counter sales. No special facilities required for handling this packaged stock.

QUICK TURN-OVER — LONG PROFIT

For many years, ever since 1926, the Willis Nursery Company has specialized in the packaging of nursery stock. We are, in fact, one of the pioneers in this field of merchandising. We know what varieties of nursery stock the public wants, and we know how to prepare it in a manner that is attractive to the customer and convenient to handle.

IMPORTANT NOTICE!

The Latest Developments in Rose Packaging POLYETHYLENE PACK

Our experiments with polyethylene for packaging roses and shrubs last spring were so successful that we will use this material exclusively for these in the spring of 1956.

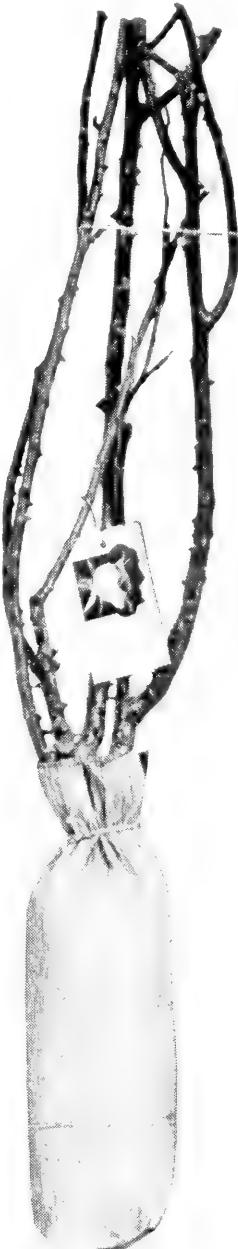

Polyethylene around the roots of rose bushes keeps the plants in better condition for a longer period of time than any other material now used for the purpose. This means that your own losses will be less and your customers will have better success. As usual, the tops of all rose bushes will be waxed.

The roots are packed in bright yellow polyethylene sacks which are decorated attractively in red and green. Designed especially for eye-appeal. Color picture-tags attached to each plant make sales easy. Planting instructions on every package.

CONTAINER-GROWN NURSERY STOCK

In keeping with the trend of the times, we are now growing a large assortment of nursery stock in metal containers. Nurserymen all over the country are becoming interested in container-grown nursery stock because they recognize its many advantages.

Displays more attractively than bare root stock.

Extends the selling season by weeks or even months, increasing sales and profits.

Can be delivered to the customer in prime condition.

The customer gets better results and you get fewer complaints.

Write for special price list of container-grown nursery stock.

GREEN ENAMEL

Plantainers

NO MORE SEASONAL LIMITATIONS TO SALES

PLANTAINER-grown nursery stock can be confidently sold and planted from early spring to late fall. Nurseries, garden shops and plant marts no longer class container-grown plant as perishable. Flowering shrubs and trees can be sold at the height of their most attractive period. Uniform eye appeal—attractive **PLANTAINERS** improve the appearance of all evergreens, trees, shrubs and make possible a better product in a far better sales package. No messy burlap or tar paper—just tap your **PLANTAINER** and the plant is ready to grow with an undisturbed root system. No setback—No losses!

CONTROL THE VARIABLES IN YOUR GROWING OPERATION

Every variety of tree or shrub can be grown in the soil mixture best suited to its requirements, and the nutrient level of this mixture readily maintained. No expensive plant food or water is wasted on weed crops, headlands, or between field rows. Drought periods do not exist with **PLANTAINER** culture.

LOWER PRODUCTION COSTS

No expensive digging or balling of plants . . . **PLANTAINER** stock is ready to deliver at all times.

More salable plants can be grown in less space. One acre will actually hold 184,240 **PLANTAINERS**. If one half of this theoretical acre were devoted to walks, service drives and display areas, there would still be space for 92,120 **PLANTAINER** items.

HERE IT IS IN A NUTSHELL

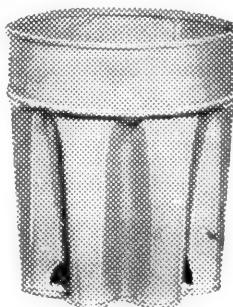

1. Healthier plants—stronger root system—attested to by satisfied users.
2. Tapered and crimped—permits nesting—space and time saving.
3. Have no rough edges—no serious hand and finger cuts.
4. Made of metal—durable—unbreakable.
5. Clean and sanitary—don't attract vermin and flies.
6. Painted green (baked enamel).
7. Enhance the beauty of plants and flowers.
8. Outlast other nursery cans—result—economy!—larger profits.

Terms and Conditions of Sale

TERMS—2% discount for payments in ten days from date of invoice, net, 30 days, to those with established credit. C.O.D. orders must be accompanied by one-fourth cash. Packing will be charged at cost on all orders except bulk truck or car shipments. 6% interest charged on past due accounts. All supplies are net.

PRICES in this list cancel all previously published prices and are subject to change without notice. Order in multiples of 10 of a variety and grade. These prices apply on the following quantities:

Fruit Trees, Shade Trees, Shrubs, Roses (except patented, which see), Vines, Perennials, Bulbs

300 or more @ 1000 rate (where published).

30 to 300 @ 100 rate.

10 to 30 @ 10 rate.

Under 10 @ 25% above 10 rate.

All grades and varieties in any class allowed to make total. For example: All fruit trees are considered one class, all shrubs one class, etc.

Small Fruits, Hedge-plants, Privet, and all Seedlings:

300 of same variety and grade @ 1000 rates.

Under 300 of same variety and grade @ 100 rates.

Evergreens, B & B.

30 trees (any assortment) @ 100 rate.

5 trees (any assortment) @ 10 rate.

Note: Classifications as given above are understood to be as listed under general headings in price list. For example: Fruit Trees, Vines, Bulbs, etc.

Broken lots of less than 10 of any one variety and grade will be billed at 25% above the 10 rate.

BOXES will be charged at cost. **BALES** will be charged at actual cost of material and labor. No charge for loading bulk trucks or cars.

SHIPPING—Please tell us how and when to ship your order, whether by rail freight, motor freight, or express, stating route if you have a preference. In the absence of definite instructions we will forward shipment the way we think best, without assuming responsibility. We are on the Santa Fe and Missouri Pacific railroads. All shipments travel at risk and expense of purchaser.

TRUCK DELIVERY—Bulk truck deliveries to customer's place of business can be made to many points at rates as low, or lower, than local freight rates. If you prefer to call for your stock with your own trucks, we should have several days' advance notice so we can have the stock ready.

NON-WARRANTY—We give no warranty, express or implied as to quality, life or productiveness of stock we sell. It is mutually agreed that our liability for stock proven untrue to name shall be limited to replacement or refund of original purchase price. All contracts subject to crop.

CLAIMS—All claims for any cause must be made immediately upon receipt of goods. We will not entertain claims which are filed after goods have been accepted or which are not made within five days after arrival of stock.
